

WHAT ARE MPG-CAPS™?

MPG-CAPS™ are a revolutionary engine treatment that can increase mileage, increase the life of valves, spark plugs and glow plugs, inhibit formation of unwanted residues, reduce carbon build-up and eliminate after run. **MPG-CAPS™** are composed of 100% active ingredients with no diluents or fillers. **MPG-CAPS™** are safe to use and handle. The proprietary active ingredients act as a surface catalyst to form a micro-thin fuel catalyzing surface on all combustion chamber components.

EPA Registered for use in gasoline and diesel pump fuels (EPA # 201220001).*

The benefits for using these **MPG-CAPS™** are:

- Increases gas mileage.
- Increases power.
- Quickens cold starts.
- Reduces greenhouse gases.
- Safe for catalytic converters and fuel filters.
- Prolongs the life of spark plugs and glow plugs, exhaust system, carburetor, fuel filters, valves and enhances overall engine performance.
- Stops ping and dieseling caused by deposits.
- Protects valves.
- Reduces hydrocarbon emissions.

DO MPG-CAPS™ WORK?

32% Increase! – I wanted to try the MPG-CAPS in my 350 Ford Diesel Truck. I did 4 tankfuls without the pills. Then I put 2 MPG-CAPS in my tank and drove from Atlanta, GA all the way to Panama City Beach FL, without stopping! Normally I would have had to fill up in Southern AL and top off in FL. I ended up getting 18.9 MPG and saved \$11.03 on that fill up alone. A 32% increase is phenomenal!

– Diane M. Kenney, FL

29% Increase! – Hi There, Well, I have just gotten back from my trip to Jacksonville FL. I've done the figures, and wait for it, I got from 17.5 mpg, to 22.6 mpg. Do the calculations! That's 29%! I'm rapped about that. It's better than I would have hoped...and I saved over 1/4 of my fuel costs.. so you can either sign up, and start making money yourself, or order some from my site and save on your gas costs.

– Russell Birtwistle, FL

20% Increase! – I drive an 18 wheeler over the road. I wanted to do plenty of testing with our 2006 on board computer. I know what this motor (new egr equipped) does at what speeds and weights in cities, mountains, and empty and bobtail. We have been testing our mileage continually, and now we are getting one MPG more than before, that is a 20% increase (from 5-6 mpg). For a solo driver that can save about \$150 per week; for a team it is \$300 per week. Every tab that I put in, I save at least \$8.50 and that is after the cost of the tablet. And that is not counting the 17% that I get back on my taxes. But probably the most exciting part is all the power the truck has, so it does not bog down on hills, which means we can drive more miles in the same period of time, which increases our productivity and generates more revenue.

– Arthur Taylor, AL

You may not receive the same results as those stated in the testimonials. Studies indicate that the average increase in fuel economy is 7-14%. Results vary depending on your driving habits, traffic, terrain, environmental conditions and the condition of your car. For best results, proper and continuous use of the product is necessary.

ARE MPG-CAPS™ SAFE?

The **MPG-CAPS™** fuel caplet are EPA registered.

Can I use the lower octane Regular Gas in my car?

Yes, you can. You no longer need Premium fuel as the **MPG-CAPS™** will provide an increase in performance in lower grades of fuel.

MPG-CAPS™ Address:

- Octane Booster: typical 0.4 – 1.0 increase
- Valve Recession: An immediate substitute for leaded gasoline. Maintains valve seat integrity as well as leaded gasoline.
- Engine Performance: Reduces combustion chamber deposits which can cause octane requirement increase, dieseling, and performance problems.

Perfect for Truckers!
Try our **MPG-MEGA-CAPS™**

* The EPA (U.S. Environmental Protection Agency) does not endorse this or any other product.

FFI OPPORTUNITY

As co-owners, Wendy Lewis and Randy Ray welcome you to FFi. They hope you see the FFi opportunity as they do. Simply stated, by personally using and sharing the **MPG-CAPS™** with others, everyone has the unlimited potential for large residual incomes in addition to large fuel cost savings!

Randy and Wendy have been involved in the computer business for the last twenty-five (25) years. During the last fifteen (15) years, they have been on the cutting edge working with several MLM companies, running their complete operations from web presence to back office support to complete worldwide distribution. They have learned what works and what doesn't work in the MLM industry.

They are unusual in the MLM industry because:

They own their own building (22,000+ Sq. Feet)

They own their own Computer Servers

They have a Fiber direct-connect to the Internet

They have their Customer Support in-house and will have native language speakers for other countries in customer support.

They do their own shipping

They have their own Programming Staff

They are DEBT-FREE, and well financed

Their product is manufactured in the USA, and their Company is in Florida.

They believe in Honesty, Integrity and Fairness in all of their dealings with their Distributors.

MORE INFORMATION...

Uses

MPG-CAPS™ are designed for use in all gasoline and diesel powered engines including, but not limited to, the following:

Autos • Trucks • Boats • RV's • ATV's • Snowmobiles
Generators • Heavy Equipment • Motorcycles

Features

- 100% active ingredients
- Novel performance enhancing engine treatment
- Unique combustion catalyst improves mileage
- Replaces the benefits of lead in unleaded fuels

How to use the FFi MPG-CAPS™

(US Gallons and Miles)

Step 1: Use 2 **MPG-CAPS™** per 12-22 gallons (tank full) of fuel initially, for the first 40 gallons of fuel.

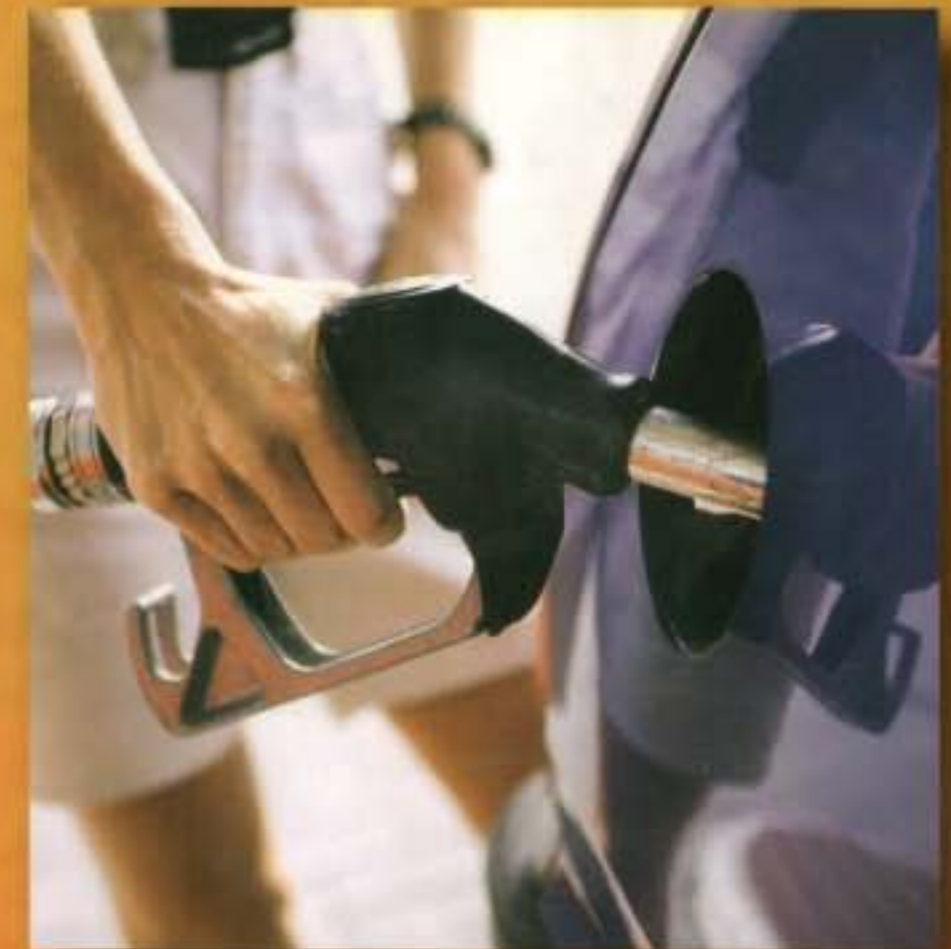

Step 2: Continue using 1 **MPG-CAP™** per each 12-22 gallons (tank full).

If you'd like to save on your fuel cost and help others to do the same, giving you one of today's best opportunities for a simple, easy and very productive home based business, contact the Associate below:
